Look up!

Wow, look up!
What do you see?

In the morning...

Small sparrows and big hadedas.

In the daytime ...

A flutter of butterflies over flowers.

A sugarbird with its long tail.

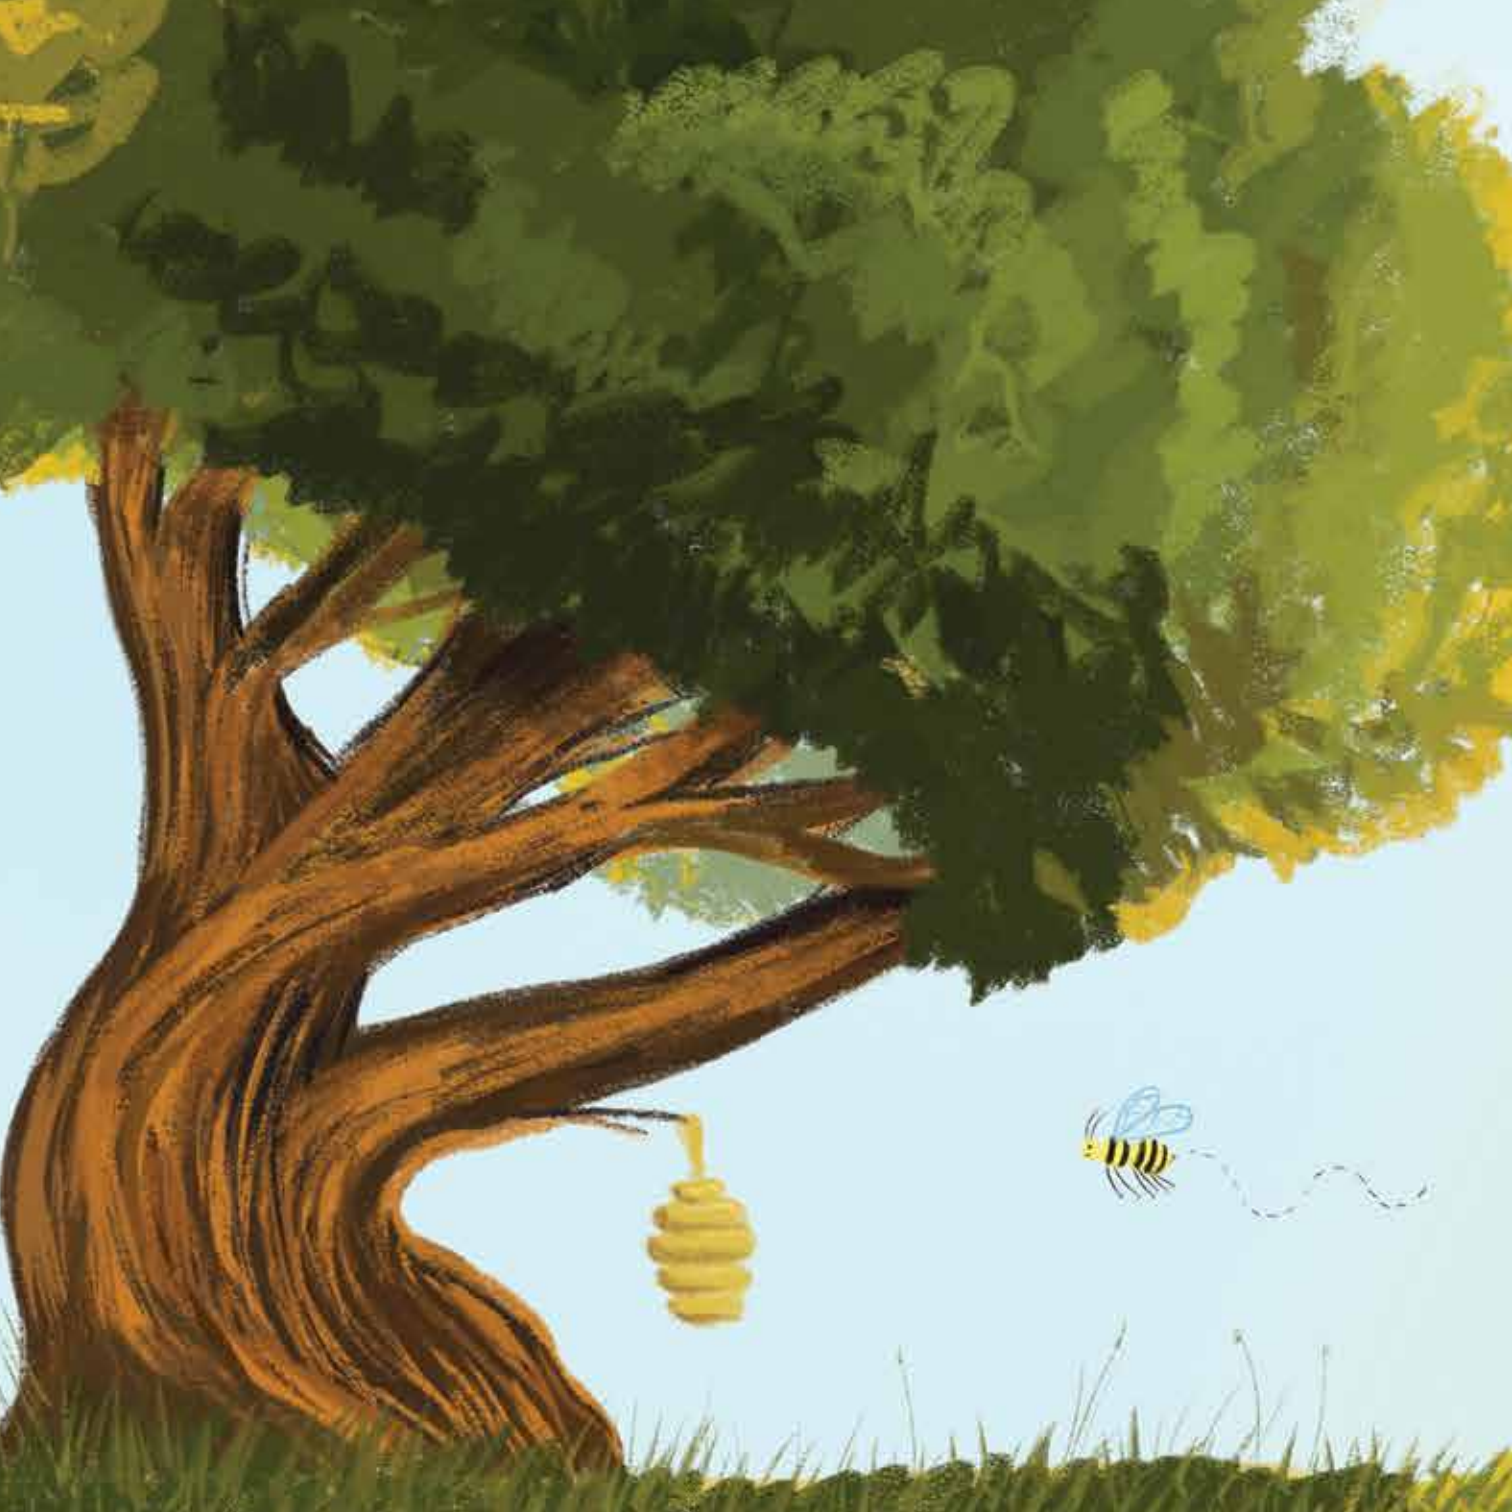

A sunbird with its bright red collar.

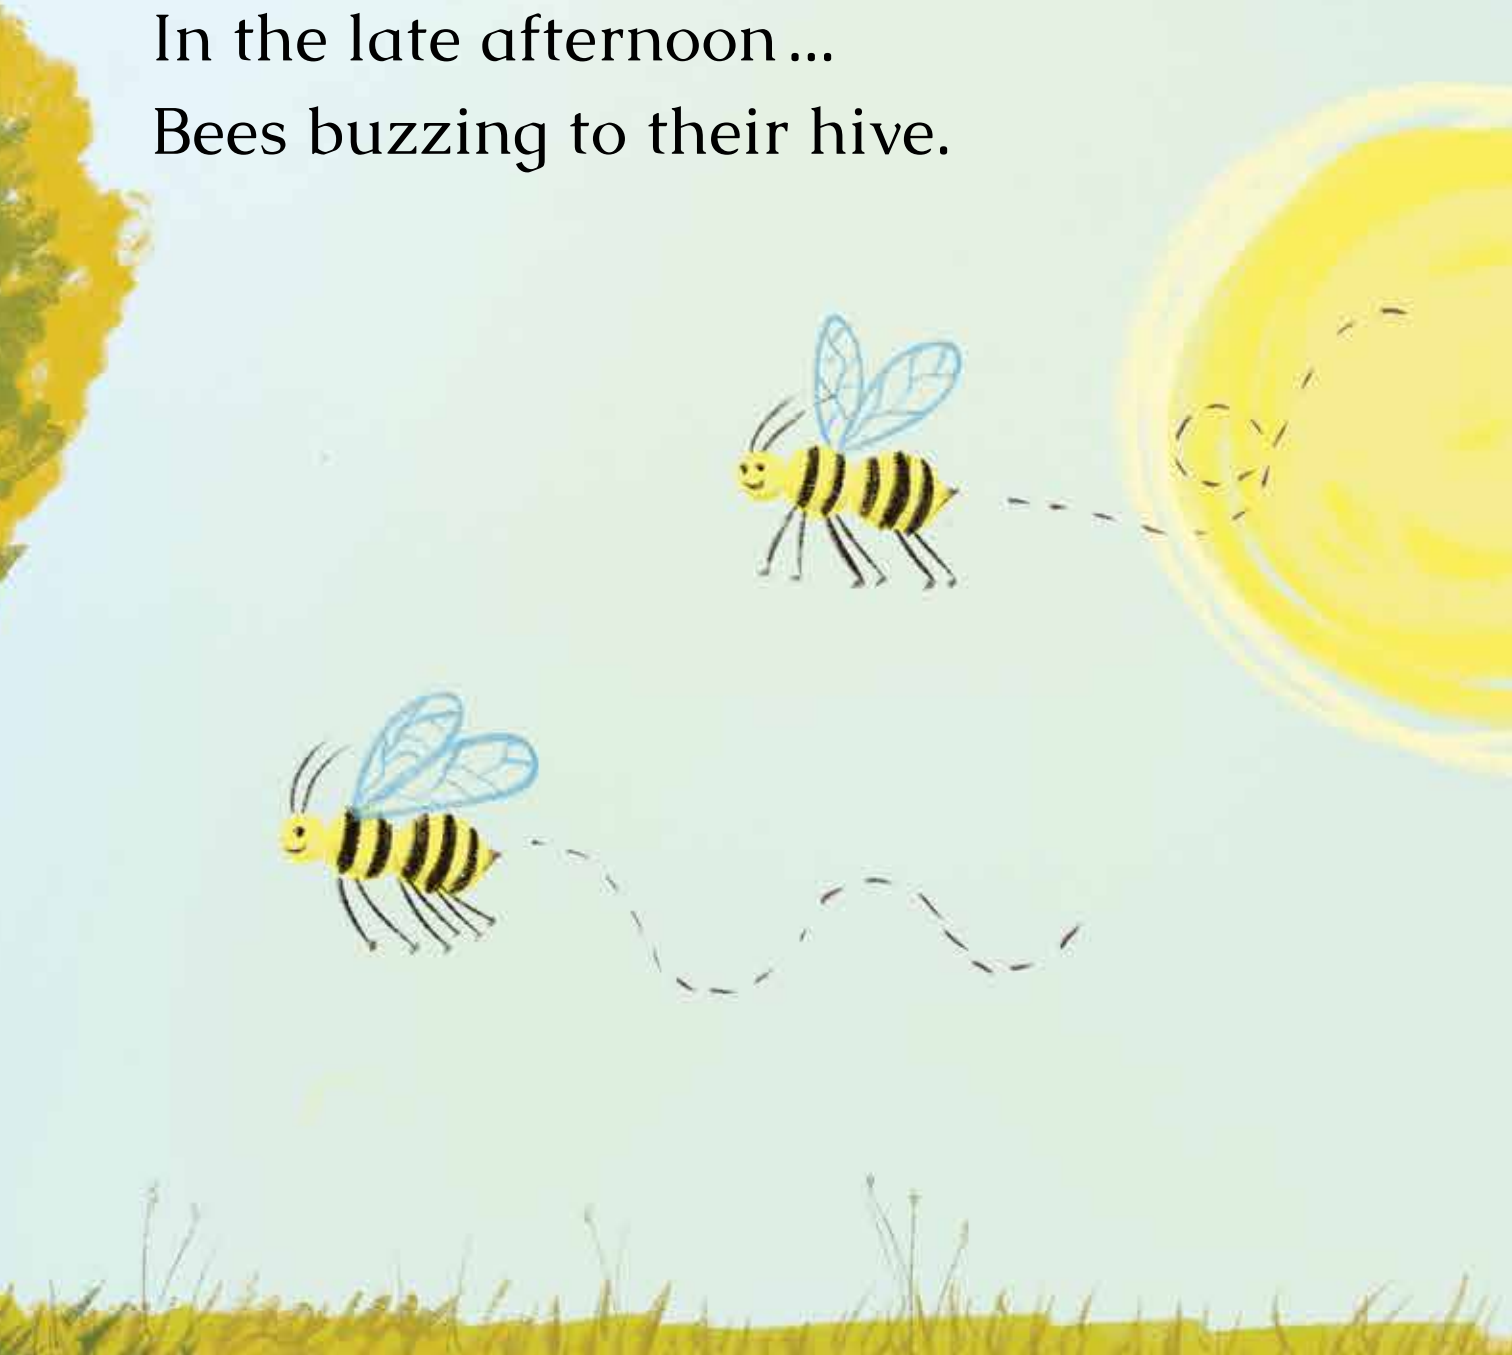

A yellow-billed kite
soaring high in the sky.

In the late afternoon...
Bees buzzing to their hive.

As the sun sets...

Geese flying home.

The twinkling lights
of an aeroplane full of people.

A night sky with several bright stars and a large, soft, white cloud formation. The foreground is a dark, grassy field. The text "Bats eating insects for their dinner." is overlaid on the lower part of the image.

Bats eating insects for their dinner.

A night sky with several bright stars and a field of grass at the bottom. The sky is dark blue with scattered white stars. The field is a golden-brown color with some green grass visible. The text is centered in the lower half of the image.

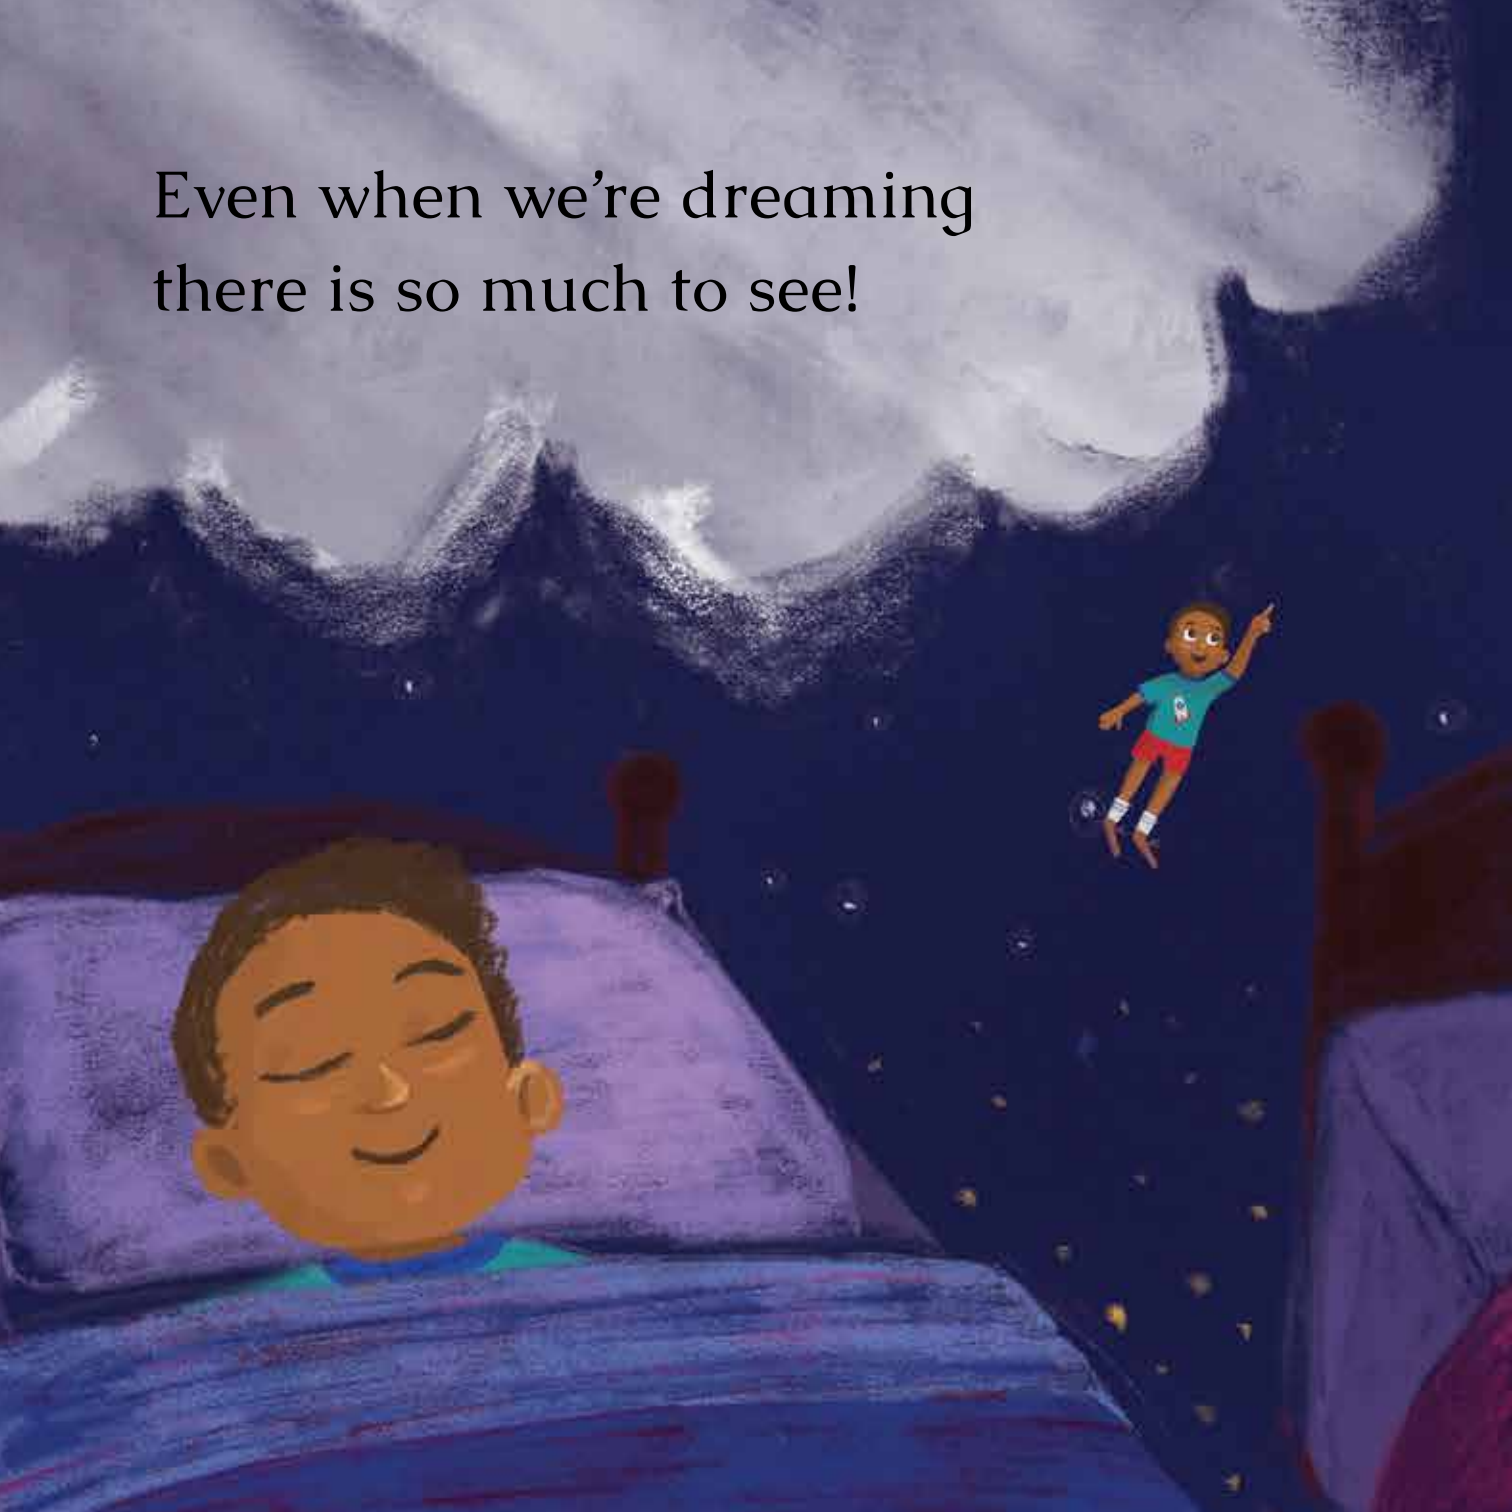

When it's nice and dark ...
An owl swooping over a field.

A shooting star.

Even when we're dreaming
there is so much to see!

Look up! There's so much to see.
